Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Castella Water Tank Rupture, Shasta and Siskiyou Counties

- Cal OES Inland Emergency Services Coordinator (ESC) Ron Quigley was notified by Cal OES Assistant Fire Chief Ken Hood of a water situation in Castella, south of Dunsmuir on the Shasta/Siskiyou County line. Per Chief Hood, the domestic water infrastructure ruptured on the evening of 10/08/15, causing the water system to completely drain.
- ESC Quigley spoke with Dunsmuir Fire Chief Dan Padilla who was on-scene at the Castella water tank. Chief Padilla advised Castella's water tank infrastructure ruptured and lost 300,000 gallons of water over a 6 hour period. Chief Padilla has been in communication with Shasta County Public Works and they advised the damaged infrastructure would be repaired this evening.
- The Castella residents should have their domestic water restored by this evening, but the time of restoral is yet unknown.
- ESC Quigley is reaching out to the State Water Board regional staff on this situation.

SPILL: 15-5956, Greenbrae, Marin County

- On 10/09/15 at 1205 hours the California State Warning Center (CSWC) received notification from Marin County that radiological chemicals were discovered at a private residence. A residential chemist lab was discovered and a hazmat team has been notified, and is on scene for removal. No spills or releases occurred. The scene is secured. Multiple chemicals were found on site (Tetra hydrate furan, Benzoyl Peroxide, Uranium Nitrate, Thorium Nitrate). Per the reporting party Marin County, a Shelter in place for approximately 20 residences was ordered.
- Per Cal OES Coastal Region DO, Marin County Sheriff reports No threat – the shelter in place was lifted and residents received an “all clear”. Hazardous Materials Team 1 completed entry investigation 1209 hrs. County Environmental Health now coordinating clean up.
- California Department of Public Health (CDPH) Radiological Health Branch (RHB) inspector onsite taking control of the radioactive materials.
- There are no unmet needs or requests for resources at this time.

SITUATION SUMMARY

Fleet Week, San Francisco, San Francisco County

- Fleet Week Activities run through October 12th. Activities include the Blue Angels performing, parade of ships on the Bay and ship tours.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Slight cooling is expected Saturday with more cooling Sunday. Hot conditions are due to high pressure anchored over the southwestern U.S. The valleys and desert areas will see temperatures climb into the 100s, with the inland coastal areas reaching 90+ degrees. Five to ten degrees of cooling is expected on Sunday. The extended period of hot and dry conditions will also bring elevated fire danger.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

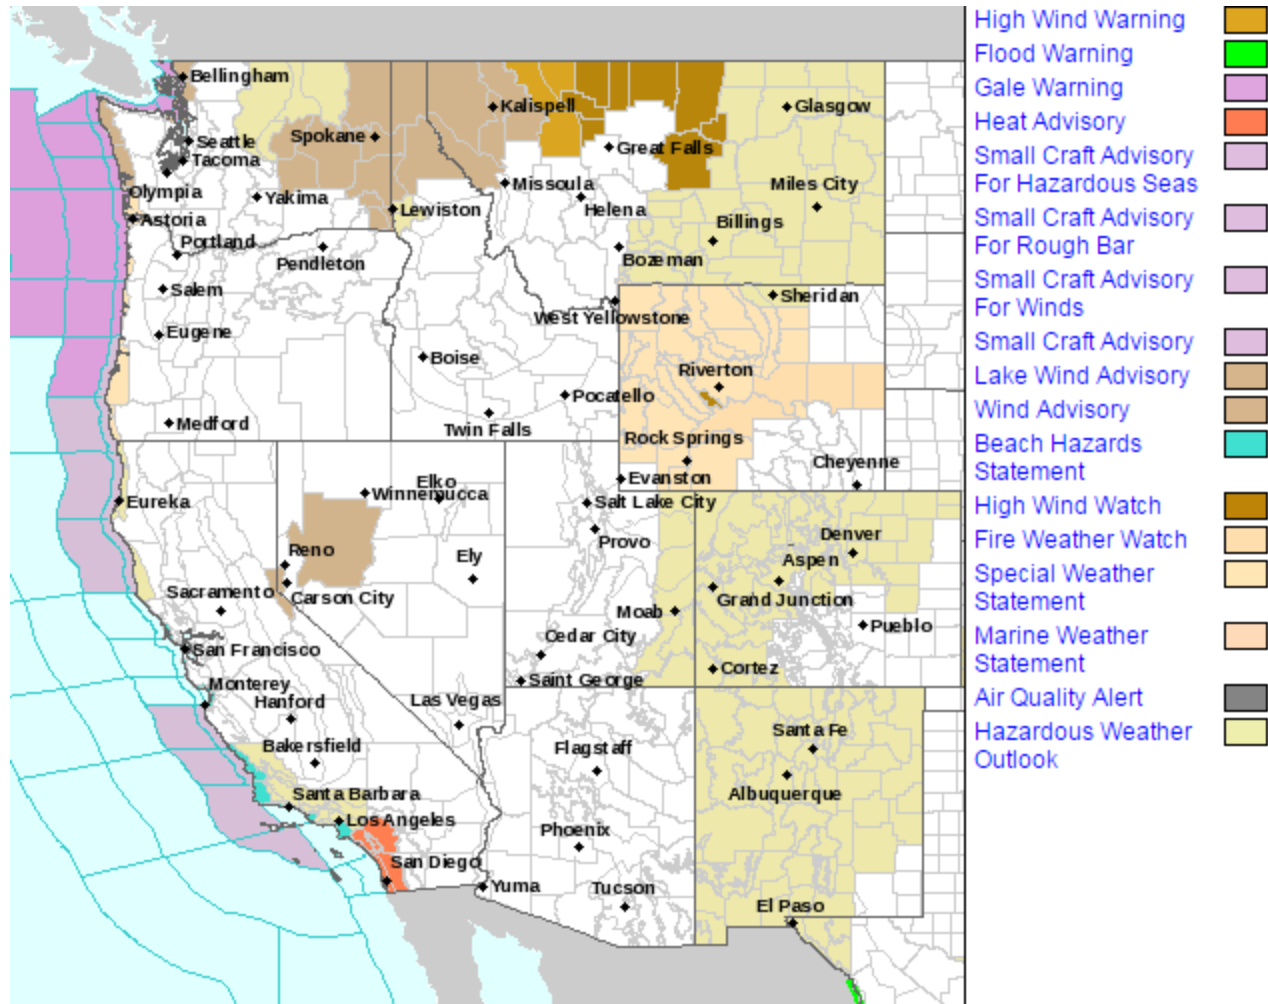

NORTHERN CALIFORNIA

Strong high pressure over Northern California will move to the southeast today as a broad Pacific low pressure trough approaches Northern California. Scattered high clouds will continue to stream over the northern end of the region today. In inland areas afternoon temperatures reach 5-10 degrees above normal and the driest areas will see relative humidity drop to 15-25% today. A weak frontal system will bring clouds to the North Coast this afternoon, with a slight chance of light rain in far Northwest California. This system will likely not even produce wetting rain. Another frontal system will brush far Northern California late Saturday as the high moves over Southern California. This second system will produce more wind and clouds than the first system, but wetting rain is unlikely with this system as well. Southwest gusts will reach 20-40 mph over the higher terrain and east of the Cascade-Sierra crest Saturday afternoon and evening. Temperatures and humidity will likely move closer to seasonal normals this weekend. High pressure will gradually build back over Northern California next week, producing warm and dry conditions similar to what we're currently seeing.

SOUTHERN CALIFORNIA

Strong high pressure over California and the Desert Southwest will maintain well above normal temperatures across the area through early next week. Temperatures will peak today, with 80s to low 90s across the mountains and mid-90s to 105 in the valleys. Temperatures will cool a couple degrees each day Saturday through early next week as the high pressure slowly moves east and light offshore flow becomes onshore and strengthens gradually. Local northeast to east winds of 10 to 20 mph will surface across the mountains and below the canyons and passes of Southern California through tonight. Minimum humidity will be mainly between 12% and 25% away from the immediate coast through early next week. A weak area of low pressure will approach the coast Wednesday and move inland by Friday causing temperatures to cool to near normal. This low may also bring scattered showers and thunderstorms to the region Wednesday through the end of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
